

“To transform, you must make a profound shift in the way you know things. How you make your world real to yourself must undergo deep revision. You can’t just keep processing data the way we’re doing it now—with an almost desperate need for speed. You need a new methodology that lets you naturally and effortlessly jump into expanded perception.”

Dear Editor/Producer,

Today, we are in the midst of a global transformation of consciousness; the Information Age is speeding toward a “leap” into the Intuition Age. The resulting new reality will operate by different rules and we will know ourselves as a new kind of human being. We’ll live in a world that’s functioning entirely in the present moment, close to the speed of light.

We see the beginning of this now, as millions of people focus on personal and spiritual growth—and understand the power of the nonphysical world to influence physical reality. We are increasingly embracing the idea that life can be improved—without new technological gadgets—by developing skill with energy techniques and more sophisticated perception. Perception itself is transforming!

This is what *LEAP OF PERCEPTION: The Transforming Power of Your Attention* (Beyond Words/Atria Books, 2013, \$25) is all about. Author **PENNEY PEIRCE**, an internationally recognized expert on intuition and perception, guides us into the new “energy reality” that’s emerging as we speak, and gives us a step-by-step roadmap to the consciousness of the Intuition Age.

Leap of Perception does three main things:

- 1) It helps speed and smooth the individual transformation process to help people avoid unnecessary struggle,
- 2) It describes the new Intuition Age reality so people can identify it and more quickly materialize it, and
- 3) It outlines the specific new “attention skills” that will be the hallmark of Intuition Age perception, and shows people how to develop and experience them.

Leap of Perception is a book that breaks new ground, much as *The Intuitive Way* and *Frequency*—the first two books in Peirce’s “Transformation Trilogy”—have done.

PENNEY PEIRCE is inspiring, articulate, and well-versed in many subjects. She is a warm, practical, and lively guest on interview programs.

Thanks for your time and consideration.
