

“It’s so interesting how transparency works. Not only can you see yourself when you open, relax, show up fully, and allow vulnerability to be natural, but that empowers others to see more of you—and of themselves. On the other hand, when you’re open, exposed, and undefended without even trying, you can see through layers of interference or illusions of opacity in people and situations that used to stop you. You have Superman’s X-ray vision!”

### INTRODUCTION TO THE BOOK

Your book is called *Transparency: Seeing Through to Our Expanded Human Capacity*. Can you briefly explain what it’s about?

This book is the fourth in your series about personal and societal transformation—the first three are *The Intuitive Way*, and *Frequency, Leap of Perception*. How do the four books work together?

What are some of the main premises in *Transparency*? How is the book organized? What will readers learn?

How did you come to write this book? How does your information come to you? Do you think there’s a reason the material you’re writing about is showing up at this particular time—when we’re in the midst of dramatic global change?

You tell a story about moving into your own transparency in the introduction, when you moved from California to Florida. Can you share that with us?

### WHAT IS TRANSFORMATION, REALLY?

You say we’re in the midst of a transformation process—at both a personal and societal level—and you call this the shift from the Information Age to the Intuition Age. But what are we transforming into? What will the Intuition Age be like?

In the beginning of your book you summarize the main points from your previous books. That really helps readers understand the main dynamics of what’s happening today. But you say that transparency is the next step in the transformation process. What do you mean? And how does it follow from the previous material?

### WHAT’S THE DIFFERENCE BETWEEN INVISIBILITY AND TRANSPARENCY?

You talk about the evolution of our understanding and experience of transparency over the millenia. Can you describe this? What are some examples of each?

### WHAT DO YOU MEAN WHEN YOU TALK ABOUT “HORIZONTAL” AND “VERTICAL” TRANSPARENCY?

You seem to indicate that one pertains to the Information Age, and one to the Intuition Age. Can you explain? What are some examples of each?

### WHAT IS THE “OPAQUE REALITY”?

This is an interesting phrase; what do you mean by it? And what causes us and our reality to be opaque vs. being transparent? I know you mention something about the left vs. right brain—how does that fit it?

### WHAT’S THE DIFFERENCE BETWEEN A SECRET AND A MYSTERY?

Tell us more about why keeping secrets is such a big part of the opaque reality. And, how does telling lies fit in with this?

### TALK A BIT ABOUT WHAT “CLEARING YOUR CLUTTER” MEANS AND WHY IT’S IMPORTANT FOR BECOMING TRANSPARENT.

“When you see through a defense mechanism, you don’t stop at the intimidating behavior but go right on into the underlying misperception about life and through that to the path back to harmony. When you see through people’s fear-based actions, motives, and secrets, you’re really aiming for their sweet vulnerability, inner beauty, and magnificence—and you find their soul.”
