TRANSPARENCY

Seeing Through to Our Expanded Human Capacity

◆
THE NEWEST BOOK IN PENNEY PEIRCE'S TRANSFORMATION SERIES!!

Transparency is a book about letting go of everything and receiving everything. It's about the irony of having no ego and an amazing personal presence, of not being intellectual and being a genius, of not needing to rescue the sufferers of the world and being a powerful force for healing. This book is about how becoming transparent empowers the good while seeming dangerous, how it lets you be empty and spacious while being full, and free while also belonging. This is a book about making enlightenment normal.

Penney Peirce has been teaching and writing about the transformation process since 1977.

By now, most people recognize the signs of life's acceleration and the profound shift in consciousness affecting both individuals and collectives—and how this is the start of a major, magical transformation.

As a pioneer in the intuition development movement, Penney first wrote:

- *The Intuitive Way: The Definitive Guide to Increasing Your Awareness*—what amounts to an intuition development bible. She followed that with two groundbreaking books that clarified key aspects of transformation:

- *Frequency: The Power of Personal Vibration* helped readers understand that there is a navigable roadmap through this death-and-rebirth process, it isn't frightening, and it's totally doable in this lifetime. It helped readers learn to work with the subtle dynamics of energy to change their life.

- *Leap of Perception: The Transforming Power of Your Attention* took the explanation further, describing how “old” linear, left-brain perception is shifting to “new” spherical-holographic, right-brain perception, and how reality will change as a result. It explained how the conscious use of attention will be the most important factor in the coming Intuition Age.

Now, the story deepens!

With *Transparency: Seeing Through to Our Expanded Human Capacity*, Penney drops into the nuances of the most crucial stages of the transformation process: the final clearing of fear-based “clutter” to reveal personal and societal transparency. And then, what is it like to live authentically, honestly, and be fully exposed for who you really are? And to have transparent relationships in a transparent reality?

- *Transparency* helps you understand how we've come to live in an “opaque reality” created by collective beliefs based on fear. In the opaque reality we forget our connection to each other, our soul, and the divine—and feel isolated and stuck. We suffer. To become transparent we must dissolve the density that's in the way of our natural, frictionless state, which always exists under the commotion.

- *Transparency* reveals the ridiculousness of how much time, energy, and resources we spend defending ourselves, keeping secrets, lying, hiding, and living by outmoded mores. And, how much misunderstanding and waste result from believing we live in a destructive, inimical world instead of in an evolving, creative, compassionate one.

Once again, Penney Peirce has pierced the collective spirit, and clearly describes the accelerating evolution of our global family. Penney is a pioneer who has long been scouting the territory of consciousness. Many people are sensing an imminent turning point, but are not sure what it means for them. *Transparency* will take you a very long way toward clarifying this evolutionary shift.

—Carol Adrienne, PhD, *New York Times* bestselling author of *The Purpose of Your Life*

If you want to make enlightenment an everyday experience, then this book by Penney Peirce is a breath of fresh air. She shows that there is great power in being seen for who you really are and having the courage to be honest, vulnerable, authentic, exposed, and available to one another. Anyone who wants to be a thought leader and influencer must dig deep into this material.

—James Twyman, *New York Times* bestselling author of the *The Moses Code*

Penney Peirce has given us a guidebook about dissolving everything that interferes with our soul expressing directly through our personality. You really can clear your “clutter” and be willing to give up secrets, lies, and hiding. When you become transparent, fear has nowhere to live, and your life expands with compassion and peace.

—Mackenzie Phillips, actress and *New York Times* bestselling author of *Hopeful Healing*

TRANSPARENCY

Seeing Through to Our Expanded Human Capacity

You *can* dissolve your opacity.

Opacity separates you from source, self, and others. It's caused by fixed beliefs, ego, unconscious fears, too much security-via-attachment and linear-logical-left brain perception, the distracted-uncentered mind, negative emotions and speech, control and victim behaviors, and even holding too tightly to your personal history and “storyline.” But it doesn't have to be this way! Each piece of clutter understood, released, and dissolved creates greater transparency.

- ***Transparency*** helps you remember an enlightened way of living—free of opacity—and how to return to it if you backslide. It helps you clear blockages in a rapid and thorough manner, identify the feeling state of transparency, and have the courage to show up fully in your life.

- ***Transparency*** helps you learn there is power in being seen for all of who you are. Secrets, lies, and hiding are no longer functional. Honesty, simplicity, and true humility produce genius and courage. Transparency creates clarity of purpose, ease of materialization, realization of belonging and support from others, and joy in conscious cocreation.

- ***Transparency*** empowers you to be seen accurately and to see through situations that blind and confuse others. You have X-ray vision! Clarity in yourself equates to clarity everywhere.

We live in a tricky, chaotic “bridge time” between 2 dramatically different realities.

- ***Transparency*** guides you through today's challenges to becoming fully transparent—when old programming says that being transparent when others aren't is a silly, even dangerous, pipedream. Negative repercussions and reprisals from others can influence you to backslide. But you really *can* stabilize your transparent self in the midst of other people's fear. You *can* step through the doorway all the way! Life is not just about survival. You can be a thought leader.

There is horizontal *and* vertical transparency.

- ***Transparency*** describes how transparency functions *horizontally* in the physical world—and in these end times of the Information Age, that's mainly about freedom of information in business and government. As we shift to the Intuition Age, transparency also functions *vertically* between the physical and nonphysical worlds, materializing the soul's wisdom, fluidly and without distortion, as your optimal reality (destiny).

- ***Transparency*** delves into the expanded perception and capacities you are likely to develop as you become transparent. And, it goes further, helping you understand how transparency relates to enlightenment.

Confusions are clarified!

- ***Transparency*** addresses many quandries. Does being transparent mean you become brutally honest? If you're transparent is there anything there for people to recognize? If you can see through the surface, will you become bored with life or depressed by what you see? What are the ethics connected with transparency? What's the difference between secrets and mysteries? If there are no secrets, what creates excitement in life?
